

PatientLock MFA

A Win-Win for Your Users and Your Security Team

As a security team, you don't want to

hold the door open for an attacker by requiring only a username and password to validate identity.

PatientLock MFA provides strong, trusted access protection across any environment.

7 MFA is the industry leading solution for 7 users in 4 applications. With multiple authentication options, users can choose the method that's most convenient for them, without disrupting productivity.

Our cloud-based solution is easy to deploy and

Strong Protection

- ✓ Verify identity in seconds
- ✓ Protect any application on any device
- ✓ Deploy in any environment
- ✓ T7 (MFA) (push, biometrics, OTP, hardware and software tokens, TouchID, SMS)

PatientLock MFA has you covered with secure access for users and devices in any environment.
